AN ICE PRODUCT NEWS RELEASE

Low-Cost Sharpening Service for Carbide Inserts

International Carbide & Engineering, Inc. (*ICE*™) offers a resharpener service for indexable carbide inserts which are used in notcher, planer, chamfer, and groover cutter heads.

Resharpener extends the usable life of inserts which will result in an improvement of the finished product and a significant cost savings.

The indexable inserts are resharpened to a micro-finish on precision grinding equipment, resulting in optimal service life due to strong, but sharp, cutting edges. Sharpness is maximized, while original relief and cutting angles are retained.

ICE will resharpen all types of standard indexable carbide inserts (two- and four-sided squares, rectangles, and rounds) at a cost of only \$1.90 each. Same-day resharpening service is available upon request.

ICE is also a prime source for new indexable carbide inserts at factory-direct prices. They can make immediate shipment from their large inventory of popular styles of indexable inserts.

For additional information please contact *ICE* (International Carbide & Engineering, Inc.) 5000 Main Street, P.O. Box 216, Drakes Branch, VA 23937-0216, or call corporate sales at 434-568-3311, 800-424-3311, Fax 434-568-3421 or E-mail ice-va@ice-va.com
